🎓 Education

Bachelor of Computer Engineering
Azerbaijan State University of Economics - UNEC   2023-Present

I am currently second-year Computer Engineering student with a strong passion for front-end development and digital innovation. I am always eager to learn new technologies and solve complex problems to build efficient and scalable digital products.

Front-End Development
Matrix Academy   2024-Present

Currently enrolled in a comprehensive Front-End Development program at Matrix Academy, focusing on advanced skills in JavaScript, React.js, Bootstrap, APIs, and Object-Oriented Programming (OOP). Gaining in-depth experience in building dynamic, responsive, and user-friendly web applications. Developing a strong understanding of best practices and modern frameworks to create scalable and maintainable solutions. Strengthening problem-solving abilities through hands-on projects and real-world applications.

💼 Experience

Ceo & Founder
Webnaix   2022-2024

As the CEO & Founder of a startup team, I lead a passionate and innovative group focused on finding digital solutions to modern problems. Together, we develop impactful and scalable Websites that address real-world challenges, fostering a collaborative and growth-driven environment.

Freelancer
Fiver   2022-2023

Working as a freelancer on Fiverr has been an incredibly enriching experience. The platform allows me to connect with a global clientele, tackle diverse projects, and continually refine my skills. The flexibility of freelancing on Fiverr not only lets me manage my own schedule but also drives my passion for delivering quality work and growing as a professional in the digital space.

👤 About Me

Passionate and results-driven front-end developer and digital agency owner with extensive experience in building high-quality websites for businesses. I have successfully developed projects for various clients, including e-commerce stores, corporate websites, and creative platforms.
